## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-24 recite a power-up for use in a semiconductor memory device.

The prior art does not teach or suggest the following limitations recited in independent claims 1 and 11:

a trigger unit for inverting an output signal of the trigger unit in response to one of a first detect signal outputted from the first power supply voltage detecting unit when the power supply voltage decreases and a second detect signal outputted from the second power supply voltage detecting unit when the power supply voltage increases, wherein the second critical voltage level is higher than the first critical voltage level.

Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
